SUPPLY DIVISION

LOGISTICS OFFICE

DISCUSSION

1. The proposed organization pattern will provide for the following changes from the present pattern:
 - a. Change in organizational position and designation of the Facilities Staff.
 - b. Redesignation of certain staff elements to branch level with concurrent section change.
 - c. Transfer of current requirements functions from the Coordination and Requirements Staff.
 - d. Establishment of a Control Staff.
 - e. Consolidation of warehouse organizations within the departmental area.

- 25X1A 2. The Facilities Staff is to be designated the Storage Operations Branch and its primary function will be the technical control over [REDACTED] with respect to the receipt, storage, issue and stock surveillance, excluding ordnance material.
3. The primary organizational elements below the Office of the Chief have heretofore been designated as Staffs. The proposed organization designates those elements having operational responsibilities as branches.
 4. The computation of current operating requirements formerly performed in the Coordination and Requirements Staff has been transferred in order to bring it into closer contact with the stock control activities and experience usage data.
- 25X1A 5. A Control Staff has been established to serve in a staff advisory capacity to agency departmental stock control activities as well as [REDACTED]
6. The activities conducted in [REDACTED] July 1953 and certain consolidations and adjustments were made to integrate these separate
